- ExpressJs

PROJECTS

Ecommerce Website

01/2024

ReactJs | Redux Toolkit | TailwindCSS | NodeJs | ExpressJs |
Mongoose

- Developed a website utilizing a cutting-edge tech stack of React.js, Node.js, MongoDB, and Express.js for a dynamic and contemporary approach.
- Implemented **user authentication** for Login, using hashed passwords for enhanced security.
- I enhanced database management by implementing a **product schema** that makes it easier to **add products**. This allows for the efficient organization of products with clear attributes.
- Implemented smooth navigation and **real-time content loading** to create a captivating user experience.

Portfolio Website

11/2022

ReactJs | Framer Motion | TailwindCSS

- Developed a portfolio website using JavaScript, CSS, and HTML, enhancing functionality with **React JS**.
- I seamlessly integrated **React Framer Motion**, resulting in seamless animations and **smooth performance** while scrolling through the website.
- To ensure accessibility and reliability, the project was successfully deployed and hosted on Netlify.

Bubble Game

- | **HTML** | **CSS** | **JavaScript** |
- Interactive and fun web game where the goal is to pop bubbles that contain random numbers within a limited time.
- A game interface features a grid of 60 bubbles, each displaying a random number (0-9).
- With a 60-second timer, users aim to pop bubbles matching the
